

I do not agree with the Consumer's Bankers Association request to telemarket Indiana's DO-NOT-CALL list. Otherwise, why would I have signed up on it. Please record my disagreement with this request with the FCC so my vote may count as a fellow businessman who also considers his time valuable and doesn't want one association to request rights that others are denied because citizens like myself value our phones for personal and business, not for solicitation when we take advantage of state & federal programs to eliminate these nuisances and \$ & Time wasters. Thank you for letting us express our viewpoint. Ed Fay, Fay's Marina, Inc.
